RISING

THROUGH DISTINCTION

Distinction is never an achievement or a destination; for us, it's a way of life.

Year 1985, the Timex Group of Industries was established by Mr Chapsi Gala with a vision to redefine industry standards. Today, Timex is considered avant-garde in innovative surface manufacturing with leadership position in the industry. Our undiluted focus towards customers' preferences is reflected through our fascinating range of products. Be it architects, interior designers, homemakers or professionals from the woodwork industry, when it comes to giving a lasting impression to their creative pursuits, there's only one entity that compliments their requirements, and that's us.

An ISO 9001-2008 Certified Company

Fuelled by years of expertise, a distinct vision for the future, personal insights and sheer passion, we're inspiring the world, one innovation at a time!

WHO WE COMPETE WITH

Our biggest competitors are us. We believe in creating international benchmarks, and then surpassing them as we move ahead; pushing forward the bar of customer satisfaction slowly but surely.

Today, Timex possesses an enviable presence across India and beyond with an omnipresent distributor network that keeps the wheels churning at all times with ease.

Vision for Excellence

A vision to lead the industry through distinction & quality par excellence.

Magnanimous Mission

To keep transforming spaces with evolving tastes. Be ethical & transparent. Practice good corporate governance & build rewarding relationship.

Giving Back to Society

We believe in supporting our social responsibilities by cultivating a corporate culture that's sensible towards every aspect of the society and environment.

A PROMISE OF QUALITY

A wide array of colour charts, fire resistance, that conform to all international manufacturing standards along with impact resistance, corrosion resistance, thermal insulation, sound insulation that can withstand extreme weather take our products a notch above the rest. All our products are cost effective with bare minimum maintenance. Designed with the ability to get easily affixed to all types of applications.

Distinction Achieved Through

- Advanced Ultra-precise Equipment
- State-of-the-Art R&D facilities
- In-House Design Team
- ISO Certifications

Timex Veneer – A Wonder of Excellence

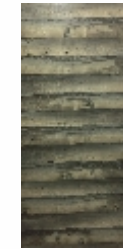

For more than a quarter of a century, Timex Veneer has proven to be the cornerstone of Timex's success – a cladding surface that has become synonymous with sophistication, elegance and style. Timex Veneer keeps enriching the industry with its outstanding products. Today, this distinction of excellence is enhanced by Timex's pioneering mind set that takes care of the entire manufacturing process, from the point of origination to the production stage, and finally to its delivery at our client's doorsteps.

 Only selected PINWOOD is used for the core of Timex Block Board. The planks are kiln-seasoned to less than 8–10% moisture content, for proper bonding.

Standard Thickness: 16 mm, 19 mm & 25 mm

7 PLY BLOCK BOARD

SPECIALTIES / KEY ADVANTAGES:

- Superior dimensional stability
- Minimum deformation
- Low weight
- High load-bearing capacity
- Screw withdrawal resistance
- Easy to process
- Solid wood
- Low formaldehyde emission

USES:

- Furniture and interior designing
- Exhibition, stage and theatre construction
- Kitchen segment
- Ship, yacht and caravan fittings
- Building sector / packaging

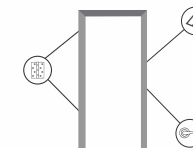

GATEWAY

TO ARCHITECTURAL DELIGHTS

Timex Fire Retardant Doors have high safety standards. They are designed to provide maximum protection to life and property in case of fire. While the main body of the door holds back the fire, the in-tumescent strip on the edges swells to fill the gap between the door and the frame, preventing smoke as well as flames from passing through.

- Fire Retardant Door Sets
- Available in 2 Variants: 60 Minute FR & 120 Minute FR
- Pre-finished Melamine Polished Veneer Doors
- Decorative Laminates Door

15 YEARS & COUNTING... A LEGACY TO DYE FOR

Timex is the first company to dye Wood Veneer & Multilaminar Wood in India. It fulfils the domestic Indian demand of dyed veneers as well as exports its own products worldwide.

Timex is at the forefront of its field and is the leading manufacturer of dyed veneers.

Dyed Veneers & Multilaminar Wood are treated through their whole structure and thickness.

They are easy to handle, offer colour uniformity and can be sanded. Colours can be repeated from time to time. It is possible to have veneers in all colours of the chromatic scale.

Timex Dyed Veneer is well known for its colour fastness.

Our fully equipped veneer dyeing facility operates under stringent European Manufacturing Standards.

We are capable of DYEING EACH AND EVERY SPECIES OF WOOD IN THE WORLD.

Timex has developed dyed veneers in the following species: American Oak, American Walnut, Eucalyptus, Figured Sycamore, Bird's Eye Maple, Birch, Koto, Ash, Sucupira, Bolivar, Multilaminar Wood, etc. The range can be fleeced onto non-woven tissues.

- European Manufacturing Standards
- Computerised Color Calibration
- Can Dye Each & Every Wood Species in the World
